PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 5 months of hands-on internship experience building responsive, performance-optimized, and visually appealing web applications. Proficient in Modern JavaScript (ES6+), React.js, React Query, and contemporary CSS frameworks like Tailwind CSS and Bootstrap. Demonstrated expertise in REST API integration, state management, and UI component libraries (Hero UI). Skilled at translating UI/UX designs into scalable, interactive digital products through 10+ completed real-world projects.

TECHNICAL SKILLS

Frontend Core:	HTML5, CSS3, JavaScript (ES6+), React.js, React Query
Styling & UI:	Tailwind CSS, Bootstrap, Hero UI Library, Responsive Design
API & Data:	RESTful API Integration, Asynchronous JavaScript, JSON handling
Tools & Workflow:	Git, GitHub, VS Code, Chrome DevTools, NPM

WORK EXPERIENCE

Frontend Developer Intern <i>UMEGS, GUJRANWALA PAKISTAN</i>	5 Months Gujranwala, Pakistan
- Developed dynamic, high-performance web applications using React.js, JavaScript (ES6+), and modern HTML/CSS architecture. - Integrated RESTful APIs using React Query for optimized server-state fetching, caching, and seamless asynchronous user experiences. - Built fully mobile-responsive user interfaces leveraging Tailwind CSS, Bootstrap, and the Hero UI component library. - Collaborated with design and development teams to implement clean code practices, component reusability, and enhanced accessibility across web platforms.	

FEATURED WEB PROJECTS

AI Chatbot Application — [React.js](#), [React Query](#), [Hero UI](#), [REST API](#), [Firebase](#)

Interactive AI conversational interface with automated query handling, real-time response rendering, and asynchronous state management via React Query.

Weather Forecast Web App — [React.js](#), [OpenWeather API](#), [Tailwind CSS](#)

Real-time weather tracking application fetching live atmospheric data, search-by-city functionality, and dynamic UI theme updates.

Vidify Video Platform & YTS Movie Website — [React.js](#), [HTML5/CSS3](#), [JavaScript](#)

Media discovery platforms featuring movie listings, video streaming components, dynamic search filtering, and customized responsive video layouts.

Country Information Explorer & Currency Converter — [React.js](#), [JavaScript](#), [REST APIs](#)

Data-driven web portals performing live API queries to output comprehensive country metrics and real-time currency exchange rates.

Amazon E-Commerce & Baby Planet E-Commerce Clones — [HTML5](#), [CSS3](#), [Tailwind CSS](#), [JavaScript](#)

Pixel-perfect e-commerce storefront web pages with custom shopping layouts, dynamic product displays, and mobile-first responsive grids.

Interactive Web Suite (To-Do App, Calculator, Tic Tac Toe, Rock Paper Scissors) — [React.js](#), [JavaScript \(ES6+\)](#), [HTML5](#), [CSS3](#), [Bootstrap](#)

A collection of dynamic web utilities and interactive browser games featuring local storage persistence, DOM manipulation, state hooks, and custom UI components.
